- Possible latex paint drive for M25. The paint must be able to be stirred, and have at least 2 inches in the bottom of the can. Any color is fine. I know a lot of people like to get rid of their latex paint = this is a good way to help the environment & also help 3rd world countries - paint helps brighten their spirits!!! Possible to collect the paint at the cookie booths? Since it isn't money???
- Another project that we could do – it's making plastic mats out of Kroger type plastic bags. You crochet them into mats people can sleep on (again in 3rd world countries). It takes around 500 bags to make 1 mat. There are instructions on the website & we could also get a volunteer to teach us how to make them. The cost would be \$0 – we'd just need enough bag donations to make the mats & of course the time.
